Description (revised)

1999 ISUZU VehiCROSS is a very limited car and if you are searching for one then you should already know everything about it. This car was in a collision and received only exterior damage on the driver side. The car was reported as a total loss, but it still drives. There was only damage done to the exterior shell of the car. The hood to the car will not open because the latch got disconnected from the accident. The car has 4 brand new tires and went through all the tune-ups prior to the accident. Everything works inside the car (AC, Radio, Etc..), Also was a non-smoking car. I am selling this car with a lost title, so you will have to rebuild the title (I am not exactly sure how that goes) . Buyer will be responsible for picking up the car or having it shipped.

If you have any questions about the vehicle please send me a message and I will respond right away.

Serious bidders only, do not put an offer if you are not gonna pay!
